

ANDERSEN PAYS TRIBUTE

Painful Throwing Picture of Probable Manner of Explorers' Deaths.

RECALLS THE TERRIBLE CONDITIONS NEAR POLE

Speaks of His Proposed Trip to North for Scientific Research.

WIRELESS BRINGS THE NEWS TO MISS SCOTT.

By Bulletin Leased Wire. Honolulu, Feb. 11.—Mrs. Robert Scott, travelling toward New Zealand on the steamer Aorangi to meet her husband, probably knows tonight of his death, although without grief from the world. The wireless code here has a stack of messages, received by cables for Mrs. Scott, but all efforts to get an answer from the Aorangi, since news of Captain Scott's death was received, have been unavailing. This does not mean, however, that the wireless has less than has picked up some of the messages sent out. The Aorangi will reach New Zealand on February 17th, via Samoa, and having had communication with some passing liner, no news may be received from her before that time.

By Bulletin Leased Wire. Chicago, Feb. 11.—A thrilling picture of the probable manner in which Robert P. Scott and four of his companions met death on the ice barriers close to the earth's southern extremity, was painted yesterday by Captain Harold Anderson, discoverer of the South Pole, who was in Chicago today.

"It is hard to say just what happened," said the Norwegian explorer, "but we can imagine, perhaps, all that is horrible. We know of the seventh parallel, and that they were down in the barrier and not on the plateau, and just about there our positive knowledge stops. Certainly they were not starving, if they had they had some snow among them—who can say? At any rate they were in a bad condition to meet the terrible trial when it came. Not that blizzards are unusual. Scott was prepared for them, for he had no snowshoes. He had expected blizzards in that country. But where they were—those poor, frozen fellows—how they suffered without even ponies to draw their sledges. They had had a long journey when they had reached a point 150 miles from the pole on the journey southward.

Drawing Their Own Sledges. "They were drawing their own sledges, weakened though they were, have been. They had no dogs, and that was a mistake I am afraid, and have before them their stretchers that awful waste of ice. Can you see it? It is flat ice, a level stretch of country in long, glassy undulations—stretching away so far and so wide that the eye cannot find a follow it. And across the frozen surface swept the wind furiously. The great expanse offers a terrible sweep for blast and there is no shelter except what man is able to build for himself."

Captain Anderson spread a hand across his eyes. "And there they died," he said sadly. "Of course, I am dead already. I see on the ice, but the others must have died within a short time of each other. One went away, you know, out in the blizzard that he sickly condition, and he hid under the other. That was a great mistake, but it did not help."

Page Tribute to Scott.

"It can't read that last message of Captain Scott's without emotion. I never met him personally, but I know that he was a brave man. For any I think of him as the captain in a hurried tone, that while those brave men were dying in the waste land, I was lecturing in a warm and comfy in Australia."

Dr. A. Anderson, a friend of the men who met death might have fallen into a crowd. "It is ridiculous," he asserted, "to think that five men would fall into a crowd."

Pres. J. C. Cox, weather forecaster, who has listened to the Nor-

CAUSES OF POVERTY.

Ontario Inspector of Public Charities Gives Evidence.

By Bulletin Leased Wire.

Ottawa, Feb. 11.—Causes of poverty and dependency in Canada were dealt with in an interesting manner today by Dr. R. W. Bruce Smith, Ontario inspector of public charities, giving evidence before the old age pension committee.

He described immorality as one of the most prolific causes of poverty, and divided the reasons for people becoming dependent on others by the following percentages: Intemperance, 21; inefficiency, often congenital, 22; improvidence, 14; thriftlessness, 11; immorality, 13; stupidity, 7; ignorance.

In Ontario, he pointed out, there are 6,000 in houses of refuge and 7,500 receiving municipal aid, and otherwise helped.

FIERCE FIGHTING IN MEXICO CITY

Seven Hours Driven Battle Results in Probably a Thousand Persons Killed.

By Bulletin Leased Wire.

Chicago, Feb. 11.—The federal and rebel forces fought a seven-hour battle in the heart of the city today, with the rebels being driven out of the city, but the fighting neither side appeared to have gained any advantage.

Battalions of the caudillo army as high as one thousand, although according to the rebels, the rebels were killed at this time. The dead certainly will be numbered in the hundreds, and the rebels for the most part kept under cover, but three Americans are known to have been killed, and several others.

Artillery played the chief part in the day's fighting, but the fire was kept up continuously, though more or less ineffectively. President Madero and his ministers received satisfaction tonight with the day's work and were said to believe that tomorrow would see the overrunning of the enemy.

General Felix Diaz, in his arsenal, appeared as defiant as at the time when he was released from prison by the mutinous soldiers, and promises a repetition tomorrow of the terrific bombardment, the decrease of which is attested by the many partially destroyed structures within a radius of a half mile.

The great loss of life resulted in a change of strategy, and the rebels, amounting to four hundred men, moved against a rebel battery which was down men and horses almost to extinction.

The president is determined to make this a final fight, and it is evident that he is not alone in this belief, for he has called on the army to realize that there will be no clemency in case of capture.

Alonso, with a strong force of men, other than the fighting forces, and at any rate they were in a bad condition to meet the terrible trial when it came.

Not that blizzards are unusual. Scott was prepared for them, for he had no snowshoes. He had expected blizzards in that country. But where they were—those poor, frozen fellows—how they suffered without even ponies to draw their sledges.

They had had a long journey when they had reached a point 150 miles from the pole on the journey southward.

Drawing Their Own Sledges. "They were drawing their own sledges, weakened though they were, have been. They had no dogs, and that was a mistake I am afraid, and have before them their stretchers that awful waste of ice. Can you see it? It is flat ice, a level stretch of country in long, glassy undulations—stretching away so far and so wide that the eye cannot find a follow it.

And across the frozen surface swept the wind furiously. The great expanse offers a terrible sweep for blast and there is no shelter except what man is able to build for himself."

Captain Anderson spread a hand across his eyes. "And there they died," he said sadly. "Of course, I am dead already. I see on the ice, but the others must have died within a short time of each other. One went away, you know, out in the blizzard that he sickly condition, and he hid under the other. That was a great mistake, but it did not help."

Ontario Inspector of Public Charities Gives Evidence.

By Bulletin Leased Wire.

Ottawa, Feb. 11.—Causes of poverty and dependency in Canada were dealt with in an interesting manner today by Dr. R. W. Bruce Smith, Ontario inspector of public charities, giving evidence before the old age pension committee.

He described immorality as one of the most prolific causes of poverty, and divided the reasons for people becoming dependent on others by the following percentages: Intemperance, 21; inefficiency, often congenital, 22; improvidence, 14; thriftlessness, 11; immorality, 13; stupidity, 7; ignorance.

In Ontario, he pointed out, there are 6,000 in houses of refuge and 7,500 receiving municipal aid, and otherwise helped.

Alberta Will See Many Miles of New Canadian Northern Line This Year.

CAMROSE SOUTH-WEST BRANCH PRINCIPAL ONE

Lines to Brazeau Coal Fields and to Peace River to be Rushed.

By Bulletin Leased Wire.

Toronto, Feb. 11.—The announcement of the C. N. R.'s construction program for 1913 was made today. Hundreds of miles of new line are to be constructed, and as many men as the C. N. R. is able to secure will be given work on the construction.

to Alberta.

C. N. R. HAS CONSTRUCTION PROGRAM

Alberta Will See Many Miles of New Canadian Northern Line This Year.

CAMROSE SOUTH-WEST BRANCH PRINCIPAL ONE

Lines to Brazeau Coal Fields and to Peace River to be Rushed.

By Bulletin Leased Wire.

Toronto, Feb. 11.—The announcement of the C. N. R.'s construction program for 1913 was made today. Hundreds of miles of new line are to be constructed, and as many men as the C. N. R. is able to secure will be given work on the construction.

to Alberta.

Alberta is to see many miles of new C. N. R. line constructed this summer. The Camrose south-west branch is the principal one, and six hundred miles of new line will be constructed.

Also fifty miles will be under construction on the Edmonton-Calgary line. The line south of Macleod at Pincher Creek will be graded for about forty miles and work on the Calgary-Lethbridge branch will also be under construction.

The linking up of the Brudenheim and Vermilion connection and the tapping of the Brazeau coal fields are to be rushed.

The Peace River line is also to have a start made on it. The Calgary-Saskatoon branch is now practically completed, and service will be established on this line within a few months.

In Manitoba.

In Manitoba a stretch of five hundred miles of new line is to be constructed, and extending to near Winnipeg, will be the main development. The Inwood-Fisher River route will be graded forty miles.

In Saskatchewan.

The connection in Saskatchewan will include a line from Starke for a distance of 44 miles towards Hudson Bay. A line of distance of line will be constructed on the gravel railway. The line through Gravelbourg towards Swift Current will have more than fifty miles added to the present line.

The McKillop-Outlook line will be extended nearly 30 miles east of Starke and about 20 miles west of it.

The Regina-Moose Jaw line, and the Yorkton branch are also included in the program.

University Site for Manitoba.

Winnipeg, Feb. 11.—At the sitting of the legislature this afternoon Premier Roblin stated that the government over an expenditure of \$200,000 for an engineering building for the university, that while the site had been finally selected, at no time in the past had the province been so bright for a university in the province.

Fire Early This Morning Threatened New Brewery

The magnificent two hundred and fifty thousand dollar brewery on 21st street, just erected by the Edmonton Breweries, was threatened today by a fire which broke out at 2:35 this morning, and only the prompt arrival of the fire department, and the fact that the fire had been prevented at what might have been a great catastrophe.

The structure, which has just been completed, and which has been under construction for some time, and succeeded in extinguishing the fire.

But for the prompt arrival, and the fact that the fire had been prevented at what might have been a great catastrophe.

Commission Has Been Apportioned to Mediate.

New York, Feb. 11.—The threatened strike of the men on the fifty-four railroads east of the Mississippi and north of the Ohio was held in the hands of a warrent and official mediator for them to arrive at a settlement if possible. Acting for the provisions of the Arden act, President W. B. Carter of the Brotherhood of Locomotive Engineers and Enginemen, and Judge Maria A. of the commonwealth of Ohio, and W. W. Hester, acting commissioner of labor at Washington, requesting them to mediate in the crisis which has arisen between the firemen and the railroads.

SECOND AND BUREAU MAY BE SENATORS.

By Bulletin Leased Wire.

Ottawa, Feb. 11.—It was stated that when the bill increasing the representation in the senate of the west becomes effective the two seats in the upper house to which Alberta is entitled, will be filled by the appointment of Dr. Hest, of Banff, a former speaker of the Northwest Territorial Assembly, and Richard Second, a prominent conservative of Edmonton, who was on one occasion a candidate for parliamentary honors, running successfully against Hon. Frank Oliver. No mention is made at the present time of Major W. A. Grenshaw, who was spoken of as a probable appointee some time ago.

Tax Reform Discussed in Ontario.

Toronto, Feb. 11.—In the legislative assembly today the debate on the reply from the throne was continued and the subject most generally discussed was tax reform. The government was also criticized by the opposition speakers for having nothing to say in the budget about the subject of the consideration of the measure will be concluded with two or three more speeches.

There will be still another proposal for the house to vote on Thursday night, however, tonight at the conclusion of his speech tonight Mr. Verville moved a sub-amendment to the tax reform amendment, declaring that the consent of Parliament should be given to the resolution until it has been submitted for the approval and received the consent of the people of Canada. Mr. Verville proposed a vote that before anything is done, both the Conservative and Liberal proposals should be submitted to the people.

Probably the most significant feature of the speeches made today was the declaration made by John M. Lemieux and the chief Liberal speaker, that the government's proposal involves a grave constitutional departure, which should not be settled without an appeal to the people.

The declarations caused some talk in the corridors tonight as to the probability of a prolonged fight on the second reading of the bill.

On Wednesday Arthur McLean, Conservative member for Portage, said he would speak in favor of the agricultural dealing with the matter of agricultural dealing.

Lennox Resumes Debate.

The naval debate was resumed by the Hon. Rodolph Lennox. "It may be," he said, "that the Canadian navy will pay tribute to the motherland, but they will pay twice, but if the navy is to be maintained, it is the duty of the government to do so."

He said that the resolution of 1905 should be taken into consideration, and that the Canadian navy had been cut and a new project of building three Dreadnoughts was submitted to the government, and that the Canadian navy had been cut and a new project of building three Dreadnoughts was submitted to the government, and that the Canadian navy had been cut and a new project of building three Dreadnoughts was submitted to the government.

BRITONS STILL

The tragic story of the death of Captain Scott and his four companions will live in the annals of the newspaper. As told in the newspapers it will awaken pathetic interest in thousands of minds not particularly concerned in the expedition or in the question of whether or not the scientific results of the expedition, whatever they may be, cannot equal in human interest or in real value the few notes scribbled by the freezing and starving men shut in by an Antarctic blizzard, notes which constitute the only record the world can ever have of the last and gallant captain and his companions. These records make clear enough what was the manner of their death and how they met it. They saw the end coming long and certainly, and faced it as gentle men unafraid, their last word to the world an appeal for those dependent upon them. To Canadians the incident will recall with vividness the fate of Inspector Fitzgerald and the "lost party," who perished in like manner in the Arctic of our own country a few years ago. To Britons the world over it will be an inspiration and a source of confidence. Who says British valor has played out?

THE FACTS.

The holders of the A. & G. W. bonds are not one cent richer, nor one will be better protected in any single respect by the agreement, by the decision of the Judicial Committee of the Privy Council than they were before the decision had been given, or if than they would have been, if the decision had never been given. Years before the case had been heard of by the Privy Council, the bondholders had officially admitted and legislatively declared that for every cent due to or to become due to the holders of the bonds, whether of interest or of principal, the Province was responsible; and has made good that undertaking by paying the interest as it has fallen due. In the bonds, whether of interest or of principal, the Province was responsible; and has made good that undertaking by paying the interest as it has fallen due.

TWO INDIANS WERE BURNED TO DEATH

Food Supply Suspended in Connection With Their Deaths and an Investigation Is Being Made by Coroner Chapman of Kenora.

By Bulletin Special Wire.
Kenora, Ont., Feb. 11.—Coroner Chapman held yesterday for the White Dog to investigate the circumstances surrounding the case of the burning to death of two Indians last Wednesday night at Pete Severn's half-way house on the Crowwing. The particulars of the double fatality, which reached Kenora, are very vague. Two Indians were on their way to White Dog from Kenora, a distance of twenty miles north of the crossing, when they stopped at the half-way house for the night. There was another Indian with them. One of the Indians, who had been with them since the party had just been to Kenora for food for the Hudson's Bay Company.

During the night the canvas-covered shed that was attached to the house, and in which the Indians were sleeping, burned down, and land and Indian named James, perished in the flames. The other Indian man, who was with them, was not injured. A few days later he turned up at the White Dog reserve. There is a well founded suspicion of foul play. Moses Land had been a friend of being a steady, sober Indian.

The investigation is expected to bring out facts indicating murder.

WANTS COMMISSION TO DECIDE.

By Bulletin Special Wire.
Ottawa, Feb. 11.—W. F. MacLean has given notice on the third reading of the new bill to increase the jurisdiction of the Dominion Navigation company, he will move that it be sent back to the committee of the whole with instructions to amend it. He will also move that the increase in stock shall not take place until the company shall obtain an order from the railway commission authorizing its issue and that in the opinion of the commission the use of the new capital is required.

CONSERVATIVES HAVE LONG DELIBERATIONS

Spent Much Time in Discussion of Organization Problems—Funds of Organization Will Be Used to Send Members to Tory Papers to Mass Meetings.

The provincial Conservatives in session all day yesterday, the principal business being the discussion of organization problems. Some of the delegates, it is stated, offered considerable criticism along these lines, and a considerable number were made to improve the party machine methods as much as possible. Delegates were strongly urged during the day to compile a list of names of known Conservatives and moderate Liberals, and send the names to the three principal Tory papers of the province. Funds have been provided whereby copies of the daily and weekly newspapers will be sent regularly to these individuals, in an effort to increase the interest of their own indifferent supporters, and to curtail the views of those who lean slightly to the other side.

May Not Be Permanent Leader.
In an address of encouragement yesterday need not be taken to mean that he will be the permanent leader of the party. He is the only outstanding Conservative in the west, and must be the focus, lead the opposition during the present session. "If the choice of a leader is decided upon, it will be after the close of the session, in readiness for a possible election."

H. B. Shaw, the Liberal member for Stettler, who has shown considerable interest in helping the conservative cause, from the outside constituency, has been invited to the headquarters of all the Conservative members, factually told them yesterday that he had heard they were going to send for a new leader to replace Mr. Shaw, who they could get on cheap.

The Conservative members, who got up to discuss yesterday by meeting in secret caucus and drafting a resolution to be presented to the government to answer motions, are inwardly hoping that there will be another split in the government ranks, similar to that which occurred before the death of the Honourable Mr. Borden.

Liberals Are United.
One of the government supporters told the Bulletin last night that there was not the slightest difference of opinion among the Liberals being united to a man in support of Premier Borden.

There was another meeting of the Conservatives in the Overland Club last night, when Mr. Michener, Mr. Headley, Mr. Ewing and other prominent members spoke. Mr. Michener made a fighting speech, in which he emphasized that the government had guaranteed railway bonds for the next forty years, and that the government had to give money for the next forty years, and that the government was discriminating in favor of corporations.

Spent Money in Cities.
While declaring that they were the friends of the farmer, Mr. Michener said Mr. Michener had spent 70 per cent of the money in the cities, and that the government was discriminating in favor of corporations. The administration farms, which were really in the interests of the cabinet ministers themselves, and C. W. Cross would not count have one in Edmonton if real estate were not so plentiful.

The Sifton administration, declared Mr. Michener, was worse than the Rutherford regime, for Mr. Rutherford, whatever else he did, had some regard for the financial standing of the province. Conditions were so deplorable and inglorious that they had reached the limit. Mr. Sifton was a profiteer so far as spending was concerned, he had heaped up obligations without any regard as to how they were to be repaid, the credit and prestige of the province had gone, and by means of loss, cowardly methods, empty promises, outsize government, and countless outrages the affairs of the province had been reduced to a hopeless tangle.

Mr. Headley also spoke as a public speaker, and did not know very much about politics, but he proceeded to make a long speech, in which he bitterly arraigned the government. He said that he had seen the friendship for the farmers by spending a million for a road through the province to the international boundary, instead of spending it in the rural districts, as they should have done. The cabinet ministers, about whom they have heard so much, were hardly worth consideration.

Upgraded Government.

Then Mr. Headley upgraded the government with regard to the public accounts, saying that the opposition members would find out where the money had gone to. All members should be produced. Mr. Marshall said that the government was a bankrupt house, but he did not know that he had read the report of the money.

Mr. Ewing followed with a short speech, in which he complained of the criticism that had been made with regard to the Privy Council and accused the authors of such articles with duplicity.

A Profitable Investment

You have come West because of a desire to better your condition financially. You believe this country holds great opportunities for you. It does; there is no question about it; and one of the greatest opportunities in a great year in Alberta's history is an investment in the ALBERTA ELECTRIC PROTECTION COMPANY. READ THE FACTS WITH CARE. YOU CANNOT AFFORD TO PASS OVER THIS MATTER HASTILY.

Profits on stock in The Alberta Electric Protection Company will be derived from a constantly increasing business of supplying to banks, wholesale warehouses, business blocks and factories, systems of fire and automatic burglar alarm protection. These systems are entirely lacking in Alberta cities at the present time for the simple reason that as yet, no company has come into the field to operate them. The Alberta Electric Protection Company is the first to commence actual operations and it is without a single competitor in the entire province.

The protection the company's systems afford is needed and will be welcomed by all business houses in the city it will serve. B. W. Hubbs of the Edmonton jewelry firm of Johnson and Hubbs, says: "The Alberta Electric Protection for stores like ours has been felt very much and we are glad to see your company starting operations." George Brown, owner of the new Hastings theatre, says: "I am more than pleased to be able to subscribe for a service of this sort as I have felt the need of it in Edmonton for some time."

Ten dollar shares in this company can be bought now at par on very easy payments: \$1.00 on application; \$2.00 on allotment; \$2.00 in 30 days; \$5.00 in 6 months.

Any further details you may desire will be furnished gladly. Simply fill out the coupon below and mail to us.

The Alberta Electric Protection Co.
206-207 Purvis Bldg., Edmonton.

Dear Sirs,—Please send me a prospectus and full details regarding the sale of stock in your company. This enquiry does not obligate me.

AMUNDSEN PAYS HIS TRIBUTE

(Continued from Page One.)

beginning of his narrative, broke in: "Shackleton nearly met the same fate, you know." "What?" said Amundsen, "Shackleton had a hard time getting back. He nearly met his death. He turned back just in time, in the very hour in fact to save his life. And he was only 111 miles from the pole."

"Can you think of the disappointment in that case?" Only 111 miles from the pole. Yet it is a long distance. When there are no railroad tracks and Pullman cars and comfort and good cheer 111 miles is nothing. There in the frozen south it is thousands of miles.

Captain Amundsen made it plain that the fate of Scott and his aides would not deter him in his plans for

a north pole expedition, beginning next year. "Why should I hesitate?" he asked. "Their affairs are very sad but really uncommon. It is not what one may expect, as perhaps some of you may think. No, I shall start and I believe I will be successful."

"What do you care about the north pole now, Captain?" he asked. "Nothing," said the explorer swiftly. "I do not seek the pole. I may not even reach it. I do not care whether I do. These stories that I am to actually seek the pole are untrue."

On Scientific Expedition. "I am going out only on a scientific expedition—chiefly to study air and ocean currents. If I am close to the pole, the conditions are favorable I will go there, not otherwise. The story that I will take an aeroplane is untrue. It is ridiculous."

Captain Amundsen sent the following telegram about the Scott tragedy:

"Commander Terra Nova, Littleton, N. Z.: 'Deep sorrow loss comrades. Congratulations success expedition. 'Kinsey, Christchurch, N. Z. 'Gladly deep sorrow to Miss Scott and Wilson on the loss of their husbands. Magnificent battle!'

Freeman Fawcett a Scribe.

New York, Feb. 11.—Ninety-six and seven-tenths of the firemen involved are in favor of a strike against the City of New York. This official result was announced in New York today at a joint conference of the railroad representative and Brotherhood of Locomotive Firemen and Enginemen.

The vote for the strike did not come as a surprise to the railroad. The vote does not necessarily mean that a strike will be declared for conference on or over several days.

are to be held with the hope that an

Have You Noticed This One?

An eight room fully modern house on water and sewer, two blocks from car line, in the popular West End, and a house that is so beautifully finished and arranged that it would appeal to the most exacting person. Four nice large rooms and bath upstairs, and dining room with beautiful leatherette walls and plate-rail on ground. Comfortable living room with hardwood floors; nice quiet library room; well arranged kitchen and pantry; full basement, concrete floor, laundry tubs, soft water tank, furnace heat, and coal bin; in fact everything complete. Small cash payment and five years for balance.

SPORT

BIG HOCKEY
PROGRAM FOR
THIS WEEK

Acme vs. Tofoeld Tonight—
Dominions Go South To Cal.
Friday Night.

THIS WEEK'S PROGRAM

Tonight—Acme-Revelion vs. Tofoeld rink.
Revelion at Tofoeld rink, 8:30 p.m.
Thursday—Tabor (Provincial champion) vs. Sakuma.
Friday—Merrett-Leslie double-header.
University of Alberta vs. University of Saskatchewan at South side rink.
Saturday—Acme vs. Tofoeld at Tofoeld rink.
Sunday—Acme vs. Tofoeld at Tofoeld rink.

Edmonton hockey fans have already been getting good game this week, but there are several more still in store. To-night the Acme-Revelion team of the Merrett-Leslie rink will play the Tofoeld rink, which is a good team and one coming up with the intention of winning the defeat inflicted on them several weeks ago by the Acme.

Tomorrow night the Tofoeld rink, provincial champions, will be the attraction at the Merrett-Leslie rink. They will play against the Revelion, and this game will give the fans a good opportunity to see the chances of the northern champions to clean up the program. If they can beat the Revelion, their chances will look exceedingly good, for they have made many extend themselves to the limit to win on two occasions.

Friday night the usual Merrett-Leslie double-header will be played. The Revelion vs. Merrett-Leslie game will be the most important Merrett-Leslie game of the season, for it will decide the championship of the season. Which team wins will mean Acme-Revelion in the final.

On Friday evening there will also be a game at the south side rink between the University of Alberta and the University of Saskatchewan. Definite word has been received from Saskatoon, that the team is expected to be on hand. This should be a game worth seeing, as the

divisely between the two universities is on Friday night the Revelion will go to the south side rink to play the Tofoeld rink for the fourth time this season. The Revelion, as they have also striven a game in Edmonton on Saturday night. The Tofoeld rink, composed of a bunch of players who can stand the pace, will be the one to watch. Saturday night's game will be between the Revelion and Tabor. It will be a very interesting and a bumper house for the Revelion, as they are without a defeat, the most popular team in the city.

WINNIPEG HOSPITAL

Winnipeg, Feb. 11.—There remains but one undefeated rink in the twenty-fifth annual Winnipeg tournament, Pinks, North Rutherford, had defeated no less than three times, being knocked out of all three. The Pinks, composed of a bunch of players who can stand the pace, will be the one to watch. Saturday night's game will be between the Revelion and Tabor. It will be a very interesting and a bumper house for the Revelion, as they are without a defeat, the most popular team in the city.

Tomorrow night the Tofoeld rink, provincial champions, will be the attraction at the Merrett-Leslie rink. They will play against the Revelion, and this game will give the fans a good opportunity to see the chances of the northern champions to clean up the program. If they can beat the Revelion, their chances will look exceedingly good, for they have made many extend themselves to the limit to win on two occasions.

Friday night the usual Merrett-Leslie double-header will be played. The Revelion vs. Merrett-Leslie game will be the most important Merrett-Leslie game of the season, for it will decide the championship of the season. Which team wins will mean Acme-Revelion in the final.

On Friday evening there will also be a game at the south side rink between the University of Alberta and the University of Saskatchewan. Definite word has been received from Saskatoon, that the team is expected to be on hand. This should be a game worth seeing, as the
